Published kagome result: Schuch et al., Fig. 11
Points recovered from the PDF drawing
Solid: boundary D=60; dashed: D=40
Paper operator: z ⊗ z, z=diag(1,−1,1)
θ = 0
θ = 0.1
θ = 0.2
θ = 0.3
θ = 0.4
θ = 0.5
θ = 0.6
θ=0: singlet RVB
θ → 1: orthogonal dimers
Clipped points are omitted, not zero.
Absolute connected correlation
